College: MES Kishore Kendra

"I was so focused on CET and AIEEE that I hardly paid attention to II PU. So this result took me by surprise. I used to spend most of my time during the year in tuitions. It was the last two months that I took PU seriously. I did not score well in internals. I studied whatever I felt like studying then. I want to take up engineering for I feel it's better than pure sciences when you go by careers. My favourite subject is mathematics. I think it's easiest to study since if we get the concept right, we need not mug up like the other subjects."

RAVINA B JAIN | Commerce

Score: 591

College: Shree Bhagwan Mahaveer Jain College, VVPuram, Bangalore

"I was expecting state rank, but never imagined to be the topper. The result brought tears of joy. I have centum in subjects like Accounts, Business studies, Mathematics and Statistics.

It was never only studies for me. I took out time and watched TV, went out with friends and indulged in extra curricular activities as well. According to me, my consistent performance in mock tests is something that gave me the confidence."
