

BIO SPARKS – The GO-GREEN Revolution!!

Jain College, RR Nagar organises “BIO SPARKS” on 30th June 2011 at 1.30pm.

Bio Sparks – The Collage Making Competition is conducted for our student community at Jain College, RR Nagar Campus to spread the awareness on Environment.

Environmental Education is a process of recognizing values and clarifying concepts in order to develop skills and added tools necessary to understand and appreciate the inter-relationship among human being, his culture and his bio-physical surroundings.

Jain College is trying to pull up all these values from our student community in the form of a Collage!!

This is an invitation to our entire student Community to put our hands together to save our planet and spread the GO-GREEN Revolution around!!

GO GREEN

save our earth
