Policy on Greenery in the Campus

Environmental protection plays a very important role in creating a healthy atmosphere. To achieve this task educational institutions should initiate to create awareness among students. So that help in creating pure air, business above all it could add its contribution in reducing Global warming. As a result, it gives so much importance and stands at the forefront in creating awareness and knowledge in environmental issues.

1. The institution should initiate minimum 2 activities in collaboration with NGO
2. Every year world environmental day should be celebrated by sapling a minimum of 25 saplings both inside and outside the campus
3. Usage of plastic should be banned on the campus and conduct awareness programs
4. Public vehicles should be restricted to enter the campus.
5. Encouraging the students to use the EV vehicles.

the concerned,

The institution has decided to address current environmental issues. To step closer to this goal it is unanimously decided to not only reduce but also ban the use of plastic on campus. We also invite feasible suggestions and ideas to further intensify this drive,

Dear students

I hereby informed that the **Entry of automobiles is restricted on campus** to join hands with government initiatives towards curbing pollution. This move is implied to contribute to the ecological balance and inculcate the sense of responsibility to save our nature from its further degradation.

Following are the restricted areas

1. Visitors and students should park their vehicles outside the main gate/ parking lot
2. Faculty members should park their vehicles in the allotted parking place.

Restricted use of Automobiles

To minimize the pollution, care is taken to restrict the public and student vehicle entry into the campus. A specific parking area is allotted for faculty members.

ban on the use of Plastic

Student volunteers of NSS conducted the green program on the college campus to generate awareness about green and peaceful earth. The college restricts the usage of plastic bags on campus. Sufficient dustbins are placed in the appropriate places.

Landscaping with trees and plants

The college campus has trees and plants that make the environment carbon dioxide-free. Plantation programs have been undertaken by the college for increasing the green cover on the campus

Other than these following initiatives are adapted

1. Digitalization of administration:

- Using more of ICT tools is promoted
- The office and departments are partially paperless
- Use more e-mail for official communication (through institutional mail id)
- Gseas software has been used to monitor the student's attendance and other official communication.

2. Energy-saving initiatives

- Use of LED's
- Electrical and Electrical devices are switched off when not in use
