

Jain College Green Policy

1. Green Policy

1.1 Purpose

The Green Policy at Jain College reflects our commitment to environmental stewardship and sustainable practices. This policy guides all operations and activities to ensure environmental consciousness is embedded across academic, administrative, and infrastructural systems.

1.2 Objectives

- Promote sustainable and eco-friendly practices on campus
- Reduce carbon footprint and manage waste responsibly
- Conserve natural resources such as energy and water
- Encourage environmental awareness and participation among students and staff

1.3 Strategies

- Implement rainwater harvesting, solar energy, and waste segregation
- Promote tree plantation drives and green landscaping
- Use energy-efficient appliances and LED lighting
- Minimize use of single-use plastics and promote digital documentation
- Encourage eco-clubs and green student initiatives

2. Environmental Audit

2.1 Purpose

The Environmental Audit is a systematic evaluation of Jain College's environmental performance to identify opportunities for improvement and ensure compliance with environmental standards.

2.2 Scope

- Waste Management (solid, liquid, hazardous)
- Water Management (consumption, conservation, drainage)
- Biodiversity and Green Cover Assessment
- Air Quality and Noise Pollution
- Resource Consumption Patterns

2.3 Process

- Formation of an audit team (internal or external)
- Data collection through surveys, inspections, and stakeholder interviews

**PRINCIPAL
JAIN COLLEGE**
#15, Vasavi Temple Road,
V.V. Puram, Bangalore-560 004

Campus:

15, Vasavi Temple Road
V.V. Puram, Bengaluru – 560 004
Ph. No: 080-46595200/201

- Evaluation of compliance with legal and institutional environmental policies
- Preparation and submission of audit report with recommendations

2.4 Frequency

- Conducted once every academic year

3. Energy Audit

3.1 Purpose

The Energy Audit aims to analyze the energy usage at Jain College and identify methods to enhance energy efficiency, reduce costs, and promote renewable energy.

3.2 Scope

- Electrical consumption (buildings, labs, hostels)
- Lighting systems (type, usage patterns)
- Use of renewable energy (solar panels, inverters)

3.3 Process

- Appoint certified energy auditors
- Record and analyze historical energy bills
- On-site measurements and equipment inspection
- Identify areas of energy loss and potential savings
- Generate audit report with actionable recommendations

3.4 Recommendations May Include

- Upgrading to energy-efficient devices
- Installing solar panels or wind turbines
- Automating lights and fans with motion sensors
- Educating users about energy conservation

3.5 Frequency

- Conducted annually

4. Monitoring and Evaluation

- A dedicated Green Committee will oversee the implementation of audit recommendations.
- Periodic reviews and updates of policy and audit processes.
- Student and staff participation will be encouraged in eco-sustainability initiatives.
